<ul style="list-style-type: none"> <li>• Dr. Ellen made sure to go out of her way to check in on me and that was something that I could not be more grateful for. She pushed me to do better while also making sure I wasn't struggling.</li> <li>• All of our zoom classes were very productive and she made us do breakout groups a lot, which allowed me to participate more and make new friends. She hosted lots of office hours or conferences to help us. I liked how she forced us to work on our projects over time by having the first draft be 50% complete, and each other draft be somewhat more complete. The discussion board posts were also helpful and interesting.</li> <li>• She is always eager to help you succeed, and will do anything she can to help her students!</li> <li>• Dr. Cecil-Lemkin's before-class activities were a big help for understanding how to complete projects or how to apply the course content to everyday life. I also appreciate the optional Fridays, as I think that going to them helped me to stay on top of what was happening in class.</li> <li>• Dr. Cecil-Lemkin is incredibly kind, understanding, and cares about teaching. She shows examples for everything we have to do and does individual conferences to make sure every student knows exactly what they need to do to succeed. I couldn't ask for more in this course.</li> <li>• I enjoyed how she promoted that the class was a safe space to have cameras on and encouraged us to work together in breakouts.</li> <li>• I greatly valued how accessible the professor was. Being able to email her or schedule a zoom meeting in order to discuss certain matters made the material and projects easier to handle.</li> <li>• I liked how the layout of this class was made very clear by my instructor from the very beginning. The feedback that my instructor provided on the assignments and being available for one-on-one conferences was also very helpful for my learning for individualized assistance.</li> </ul>	

### 19 - What aspects of the course and/or Ellen Cecil-Lemkin's instructional methods could be improved that would enhance your learning? Please give examples. -

Response Rate	8/19 (42.11%)
<ul style="list-style-type: none"> <li>• Honestly nothing, she did fantastic.</li> <li>• I wish she read some of our essays before we had conferences with her so she could give us more productive feedback during our conferences.</li> <li>• I thoroughly enjoyed this course.</li> <li>• I can't think of any.</li> <li>• I can't think of anything. I think Dr. Cecil-Lemkin is the best teacher I could've had for this course.</li> <li>• I loved the course</li> <li>• Honestly, the only issue I had with the class in the beginning of the year was resolved by the end. No comment here.</li> <li>• I would suggest improving this class by possibly changing the due dates set up for the assignments to be midnight the night before the class they are needed for or by midnight the day of, since the before class deadline was sort of awkward and different from the norm when compared to my other classes. This is only a suggestion, because I know this would have helped me as a student. That's really all I can think of, as this class was structured in a way that was great for learning.</li> </ul>

<ul style="list-style-type: none"> <li>• She was a great professor!</li> <li>• Thank you Dr. Cecil-Lemkin! Your class helped me tremendously in improving my writing skills. I feel much more comfortable with writing college-level material now. Not only did I learn a lot, but I also enjoyed our class environment as well. For being online, your class felt very personal and engaging. I love that you do questions for attendance, and really care about how all of us are doing. I appreciate all that you have done, thanks again :)</li> <li>• Overall, I was grateful for having this professor for this course. She did a fantastic job at conveying the information in an effective way, and despite the content being relatively elementary, she held our attention.</li> <li>• I loved the daily attendance questions and sometimes they were a highlight of my day! Thank you for all of your help this semester and for being a great professor!</li> </ul>
